There are multiple property ID records with multiple values for Year Built.

Can I safely assign each parcel highest yr_built value or it means something else?

See below prop_id 198707 has 36 entries with 0 value, 18 entries with 1960 as year built, 9 entries for 1965 and 9 entries for 1977.

Should I link to 1977 entry?

Found it. We had removed identifiable fields from map service for privacy reasons.

That's strange, should be a Prop_ID there too, at the beginning of the table.

Jake,
I have downloaded data.
What field in Parcels layer matches with Prop_ID? I see Update_ID and PolyID.

We are working on the aerial imagery. I envision sometime today.

Please keep Raj Dutt cc'd on all the emails. He will be working on these things.

Thanks.

Raj, can you download this information and see about linking it up to the parcel data so we can make a layer showing built date on these parcels. I imagine they will want to see all the houses built prior to 1977 for absestos reasons.

Eric is this correct? Do you want it as a service?

Janine,
You can download it at <ftp://ftp.ci.waco.tx.us/gis/> , then go to folder CityofWaco\West, the zip file is there.
Do you know when or if the aerals on the image service will be cleaned up?

Thank you
Jake

Can you send the attribute table that will allow us to link the parcels to so let us know what the common field will be. geodatabase is fine.

Yes. The appraisal district stores that in an "Improvement table" seperate from the normal parcel data. Do you want me to send you that attribute table? What format?

Also, ATF has been asking, do you know when the aerals on the image service you gave me will be cleaned up?

Thank you,
Jake

Jake,

Do you have an attribute field that lists the date of construction for the structures in those parcels?

Attached is a zip file. Rename to .zip. There are 2 polygon files of the exclusions zones for you to clip the parcels to.

Thanks.

Jake,

Eric Delgado (also with EPA) and Janine Latham (START Contractor – GIS) can provide you with the ASPECT Aerial imagery shape file and have requested the parcel data. Per our discussion, they will coordinate with you so that we may help each other out.

Eric/Janine – Jake's phone number is 254.749.0607

Thanks
